INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW:

Penal Code Section 5054 vests with the Director the supervision, management and control of the prisons, and the responsibility for the care, custody, treatment, training, discipline, and employment of inmates.

Penal Code Section 5058 authorizes the Director to prescribe and amend regulations for the administration of prisons.

This action will incorporate into the Director's Rules amended regulations affecting violence and arson administrative determinants.

- This regulation amends existing language to include determinations made at a juvenile adjudication. These determinations will be used as the criteria for classifying inmates as violent, giving them a "VIO" determinant or as arsonist, giving them an "ARS" determinant. These determinations establish that a sustained juvenile adjudication will have the same force and effect as a current or prior conviction in classifying inmates.
- This amendment is necessary because the propensities that come with these offenses do not go away simply because the offender become an adult. We have included them in this section in order to

accurately assess the level of security at which an inmate needs to be placed while taking the inmates previous offenses into consideration.

- This regulation establishes that for the purpose of this subsection, a sustained juvenile adjudication is a guilty determination or ruling rendered in a juvenile judicial proceeding. It is necessary to define juvenile adjudication so that institution staff can easily establish what exactly is considered a juvenile judicial proceeding
- This regulation establishes that an administrative determination is a Board of Prison Terms or Parole Hearings Division good cause finding or a California Youth Authority / Youthful Offender Parole Board sustained allegation.
- This regulation establishes that a probation violation finding in a court of law shall have the same force and effect as a current or prior conviction for a violent felony.
